Medical Benefits Abroad

for international business travelers

When your employees travel on international business, you want to be sure they have access to quality health care when they need it.

Cigna's Medical Benefits Abroad® (MBA) plan gives you that access. It covers international business travelers for injuries and illness that may occur while traveling on company business away from home. Plus, our MBA plan is like the travelers it covers - mobile. That means their benefits go wherever business travel takes them.

Here's why you should choose our MBA plan for your international business travelers.

Easy administration

With the MBA plan, you can expect:

- **Simplicity** because there's no need to supply eligibility data to set up your account
- **Convenience** because you pay one-time annual premiums

- **Flexibility** to choose from pre-priced plans or custom coverage options to meet your company's unique needs for any number of international business travelers
- **Ease** of one-stop claiming. Your employees don't have to file their claim multiple times while seeking reimbursement. With Cigna, it's only once

Unmatched international experience

You can count on an international track record that is unmatched. Consider these facts that separate Cigna Global Health Benefits from the rest:

- We have one of the largest US-based networks of health care professionals of any international health services company.
- With more than one million health care professionals, clinics, and facilities worldwide, we offer one of the largest networks of doctors and hospitals.
- We are one of the world's largest and oldest organizations in its industry. In fact, Cigna Global Health Benefits has some of the most significant on-the-ground overseas operations of any US-based health services company.

Why choose Cigna

CignaEnvoy.com

using our website

One Site. One Stop. Cigna Envoy®.

Cigna Global Health Benefits' MBA plan gives employees access to one central online resource that is tailored exclusively for short-term travelers. It's Cigna Envoy for international business travelers located at www.CignaEnvoy.com. It is the go-to health resource for anyone traveling abroad on company business. The information is specific. The tools are practical. And, timing is spot on. That's because employees can access information on some 200 countries before they even leave for their trip. They can easily research:

- Currency and exchange rates
- Immunization requirements
- Security alerts
- Voltage requirements
- Country weather and time
- Disease prevention tips

Plus, they can find doctors and hospitals from our global directory of pre-screened health care professionals whenever they need them – even before they need care. What's more, they can identify doctors and hospitals that bill us directly. A footnote below the doctor's contact information indicates if a "direct settlement" is offered. Then employees can simply present their Cigna MBA ID card for payment when they visit.

We take good care of your travelers

When you select our MBA plan, you're providing your employees with several advantages. Employees can count on quality health care benefits that cover:

- Hospital admission, surgeries, outpatient medical care and ambulance services for emergency medical treatment
- Prescription drugs and replacement medicine for lost prescriptions that are medically necessary
- Dental emergencies for an accident to sound natural teeth or alleviation of sudden unexpected dental pain
- Medical evacuations in case employees require immediate medical attention and adequate facilities are not locally available

the right care, even quicker

Knowing your employees have good quality medical coverage is not all you get, though. Here are additional reasons our MBA plan is one of the best things you can provide employees when they travel abroad on company business.

Multiple billing arrangements for any situation

Your employees may be able to take advantage of simple and convenient direct billing arrangements¹ that may eliminate the need for them to pay upfront except for any coinsurance or cost-sharing that your plan may require. This is possible when your employees visit an international doctor or hospital that has direct billing arrangements in place with Cigna. All they need to do is present their Cigna MBA ID card.

If direct billing is not available, the doctor or hospital may accept a guarantee of payment from us and will then file the claim directly with Cigna – reducing the need for your employees to submit any paperwork or pay in full for their care.² The doctor doesn't need to have a previous agreement with us to request a Guarantee of Payment.

If your doctor or hospital accepts direct settlement from Cigna, it will be noted in your search.

In situations where the doctor does not have a direct billing arrangement with us, and they will not accept a Guarantee of Payment from us, your employees can still receive care. After the visit, your employees simply complete a claim form along with an eligibility verification form that is included in their Welcome Kit, and clearly state how they would like to be reimbursed.

And when your employees are traveling outside of their country of residence to the US and need to receive emergency care during their visit, it is important that they show their Cigna MBA ID card to the doctor or hospital. This ensures that the doctor or hospital can reach us at the dedicated MBA phone line to verify their benefits. The result? They get the right care, even quicker.

Dedicated phone line with around-the-clock service

No matter what time zone your employees are in, they can count on around-the-clock support. A dedicated MBA phone line to our Service Center lets your employees reach our service team 24 hours a day, seven days a week, 365 days a year. They can contact us anytime by phone whether they're unsure of how to get medical treatment or simply have questions about their MBA plan.

Access to medical advice, consultations and referrals

Wherever employees are in the world, they can get access to our medical team. From helping them coordinate their treatment plans to getting assistance with medical appointments and hospital admissions both inside and outside the US, we're there. All that employees need to do is call the dedicated MBA phone line to our Service Center. Our customer service team will put employees in touch with a medical team member.

simple, convenient direct billing arrangements

¹ There may be instances where doctors with a direct billing arrangement still call Cigna to verify your employees' eligibility. When this happens, your employees simply show their Cigna MBA ID card to ensure that the doctor calls the dedicated MBA phone number on the back of their ID card.

² Guarantees of payment by Cigna are not available in some countries such as Abu Dhabi. Due to regulatory requirements, business travelers who seek emergency medical services in some countries like Abu Dhabi must file a claim and submit it to Cigna for reimbursement of their medical expenses.

MBA Plans

Four pre-priced plans

Four pre-priced plans are available. With all MBA plans, coverage begins when an employee leaves the country of residence or permanent assignment and coverage ends when he or she returns.

Additionally, custom quotes for other coverage options are also available to meet your company's unique needs for any number of international business travelers. Customization of the standard MBA plans allows for several options, including flexible deductibles and coinsurance, removal of accidental death and dismemberment, and medical evacuation and repatriation. For travel greater than 749

weeks, please contact your Cigna Global Health Benefits New Business Manager for a custom quote.

Enhancements to your plan

For even more generous benefits, you can choose an MBA plan that includes coverage for:

- Personal travel when it's taken in combination with the employee's business trip
- Medical care for family members that are traveling with the employee
